Arthritis Management

The ancient Ayurvedic texts describe two basic types of arthritis that correspond with osteoarthritis (Sandhigata Vata) and rheumatoid arthritis (Ama Vata). In Osteoarthritis, the vitiated Vata afflicts the joints and causes destruction of the cartilages and reduction in the Synovial Fluid inside the joint capsule, leading to swelling which results in the condition similar to painful movement. In Amavata, vitiation of Vata Dosha and accumulation of Ama take place in joints, which simulate rheumatoid arthritis (RA) in modern parlance. The most common complaint when it comes to arthritis is pain, swelling and stiffness in the joints.

Migraine Management

Migraine can be both one sided or sometimes bilateral headaches, which are recurring and pulsating in nature and may or may not be associated with nausea and vomiting, also causing sensitivity to light, sound or smell and lasting from 2 to 72 hours.

TYPES:

Migraine with Aura:

The auras act as a warning to patients, making them aware in advance. The effects of an aura can include:

- Confusing thoughts or experiences
- A perception of strange, sparkling or flashy lights
- Zig-zagging lines in the visual field
- Blind spots or blank patches in the vision
- A feeling of pins and needles pricking in an arm or leg
- Difficulty in speaking
- Stiffness in the shoulders, neck or limbs
- Unpleasant smell

Migraine without Aura

More commonly, a person will experience a migraine without any sensory disturbance leading up to the attack. Between 70 and 90 percent of migraines occur without an aura.

OTHER TYPES

There are other types of migraines related to specific syndromes or triggers, including:

Chronic migraine:

This refers to any migraine that triggers attacks for over 15 days of a month.

Menstrual migraine:

This is when the attacks occur in a pattern connected to the menstrual cycle.

Hemiplegic migraine:

This causes weakness on one side of the body for a temporary period.

Abdominal migraine:

This is a syndrome that connects migraine attacks to irregular functioning of the gut and abdomen. It mainly occurs in children under 14 years of age.

Migraine with brainstem aura:

This is a rare type of migraine that can trigger severe neurological symptoms, such as affected speech.

BENEFITS:

- Reduction in pain
- Reduction in the number of episodes and frequency

INCLUSIONS:

- Individual wellness consultation
- Dental consultation
- Body composition analysis
- Daily fitness & leisure activities (such as Gym, Yoga, Pranayama, Meditation, Miniature golf, Lawn tennis, Badminton, Swimming in Temperature-controlled pools, Reflexology Track etc.)
